“ RIGHT GUIDANCE AT THE RIGHT TIME

OUR MISSION

To formulate and implement policies governing the provision of career education and guidance. To develop innovative, appropriate and effective methods and materials for career development that enable informed educational, training and occupational choices.

To provide an interface and vital networking channel with greater collaboration, cooperation and cohesion for a diverse and fragmented community of career guidance professionals.

To devise and conduct relevant research and to provide a forum for disseminating effectively its findings and coordinating communication with other bodies engaged in similar activities.

To provide training and continuing education program for career management professionals who help people make career decisions with up to date knowledge of career pathways and resultant decision making. To propagate the activities of Affinity Educational Consultants and impart training to professionals in the field of career management, a website "www.affinityeducation.in" has been created.

OUR VISION

Affinity mission is to assist individuals of any age and at any point throughout their lives with tools and the opportunity to make the best possible choices about life, career and education pathways by ensuring admissions to the Institutes matching their choice.

Helping students make smart decision about education and learning in India and Abroad.

It's our goal that youth can confidently manage their own career throughout their life.

We believe that " Right guidance at the Right time " improves the chances of success in one's life. Easy availability and systematic presentation greatly enhance the use of guidance services.

NEET - UG

NATIONAL ELIGIBILITY CUM ENTRANCE TEST (UG) 2020 (NEET (UG) 2020) will be conducted by National Testing Agency (NTA) for admission to MBBS / BDS Courses and other undergraduate medical courses in approved/recognized Medical/Dental & other Colleges/Institutes in India.

Section 14 of the National Medical Commission Act, 2019 provides for holding of a common and uniform National Eligibility-cum-Entrance Test (NEET) for admission to the undergraduate medical courses in all medical institutions including those governed under any other law. Thus, the admission to MBBS course in AIIMS, New Delhi, JIPMER and all AIIMS like Institutions will be made through NEET. The eligibility criteria applicable to appear in NEET (UG) shall also be applicable to the candidates desirous to take admission to INIs like AIIMS. Similarly, the criteria for minimum qualifying marks to be eligible for admission to MBBS course shall also be applicable to INIs. Further, the common counseling for admission to MBBS course in these INIs shall be conducted by the DGHS as per the Time Schedule specified in the MCI's regulations. The NEET (UG) - 2020 will be conducted on Sunday, the 13th September, 2020. The responsibility of the NTA is limited conduct of the entrance examination, declaration of result and for providing an "All India Rank Merit List" to the Directorate General Health Service, Government of India for the conduct of counselling for 15% All India Quota Seats and for providing the result to States/other Counselling Authorities.

ABOUT MBBS

WHY STUDY MBBS IN ABROAD?

MBBS is the most demanding course after engineering in India. Medical studies in India are expensive in the World.

Every year many students appear in the entrance exam of top Medical Institutes, but only few of them get the admission in those Institutes and the rest of them have to join private medical colleges. These colleges demand a huge amount in the form of fees, but it is not affordable by everyone of us.

Here, we help students pursue their medical Study abroad in affordable medical Institutes in other countries. Many Indian Medical students are taking admission in these MCI approved universities around the World.

What is MBBS?

An MBBS degree is an undergraduate course for aspirants who want to fulfil their dream of becoming a doctor. Bachelor of Medicine and Bachelor of Surgery (MBBS), is a professional degree in Medical Science. A person holding the MBBS degree becomes a certified medical practitioner. The duration of MBBS course is five years and six months including one year of rotational internship at hospitals, health centres, and health camps organised by non-profit organisations (NGOs). MBBS course syllabus includes studies on anatomy, pharmacology, pathology as well as community health & medicine, paediatrics, and surgery. The syllabus, prescribed in such a way that MBBS degree holders can choose a specialisation for further majoring and practising medicine. The career specialisations for MBBS students are Nephrology, Cardiology, Gynecology, Anesthesiology, Organ Transplant, Endocrine, and General Surgery, etc.

Why MBBS?

Medical studies as a career option are acknowledged and appreciated through several generations. It is one of the oldest professions and a noble service to humanity. The merits of choosing MBBS are:

A lucrative career – Medical industry is one among the highest paid fields in India. The national average salary of an MBBS doctor in India is ₹ 9,02,800 currently. Doctors with a Post Graduate specialization can expect better salaries. The earnings can be furthermore increased by acquiring higher degrees in super specialty subjects.

Diverse opportunities – The obvious choice after MBBS is to start as a doctor. One can work with a government or private hospital or venture into private practice. If anyone wants to choose an alternative career path after MBBS, various opportunities can be explored. Sports medicine, health research/journalism, hospital management, medical academics, policy-making in public health are just a few avenues whether a medical graduate can find a job.

Job security – Job security is yet another reason why most talented students want to become a doctor. The doctor-patient ratio in India stands at less than 1 for every 1000 population, and the country needs more medical professionals. India needs 4,97,189 more doctors to meet the World Health Organization (WHO) standards. Finding a job after MBBS degree won't be a difficult task and the demand for doctors is not going to decrease anytime soon. The need for specialist doctors shows an increasing trend in the country.

Continuous Progress and Personal Satisfaction – Medicine is a field where one can make continuous progress in the career. It is a diverse field with immense possibilities to build a successful career. Moreover, a health practitioner can expect immense personal satisfaction by saving the lives of many patients during their career span.

Reputation – Doctors enjoy a reputable position in society all over the world. They work with compassion and responsibility to help people lead a healthier life. Doctors sacrifice their personal and professional life for saving the lives of others, and the high regard they earn is a result of their commitment to the profession.

- Assistance for Foreign exchange from authorized dealers of India.
- Campus support in University
- Staying arrangement in foreign countries for students

DOES INDIA REQUIRE MORE DOCTORS?

INDIA IS ONE OF THE FASTEST GROWING ECONOMIES IN THE WORLD AND THE SECOND MOST POPULOUS COUNTRY. IN SPITE OF RAPID DEVELOPMENT ACHIEVED IN OTHER FIELDS, THE PERFORMANCE WHEN JUDGED ON HEALTHCARE PARAMETERS REMAINS POOR. ONE OF THE DOMINANT DISCOURSES IN THE PUBLIC HEALTH DOMAIN WITHIN CONTEXT OF PROVISION OF UNIVERSAL HEALTH COVERAGE IS THE SHORTAGE OF ADEQUATE NUMBER OF QUALIFIED MEDICAL DOCTORS AND OTHER HEALTHCARE PROFESSIONALS IN INDIA. WORLD HEALTH ORGANIZATION (WHO) HAS PROMULGATED DESIRABLE DOCTOR-POPULATION RATIO AS 1:1,000. YET, OVER 44% OF WHO MEMBER STATES REPORTED LESS THAN ONE PHYSICIAN PER 1,000 POPULATION RESPONDING TO THIS CHALLENGE, THERE HAS BEEN A MAJOR THRUST ON INCREASING THE CAPACITY OF GRADUATE TRAINING PROGRAMS (MBBS) AT MEDICAL INSTITUTIONS ACROSS INDIA.

UKRAINE

Fast Facts About Ukraine

Ukraine is a country in Eastern Europe. It is bordered by Russia to the north-east; Belarus to the north; Poland, Slovakia and Hungary to the west; and Romania, Moldova, and the Black Sea to the south. Ukraine is currently in a territorial dispute with Russia over the Crimean Peninsula, which Russia annexed in 2014. Including the Crimean Peninsula, Ukraine has an area of 603,628 km² (233,062 sq mi), making it the largest country located entirely in Europe, and the 46th-largest country in the world.

Geography:

Ukraine is the world's 46th-largest country, and is the largest country located entirely in Europe.

Climate:

Ukraine has a mostly temperate climate, with the exception of the southern coast of Crimea which has a subtropical climate. The climate is influenced by moderately warm, humid air coming from the Atlantic Ocean.

Biodiversity:

Ukraine is home to a diverse assemblage of animals, fungi, microorganisms and plants.

WHY UKRAINE?

To study medicine in Ukraine universities is truly a rewarding investment of time, finance and career acquisition. Although little known to many, Ukraine has one of the best Medical Universities. Most of them are continuations on the foundations laid during the Soviet era. Those foundations have been greatly improved upon, integrating new developments in medical technology. The all time number of international students trained as medical doctors in Ukraine runs into hundreds of thousands. Practicing medical doctor, trained in Ukraine's different medical institutions, already have well over 25 years of professional practice in their different fields of specialization and career. Whether practicing in the public sector, the private sector or as consultants, medical practitioners that studied medicine in Ukraine are known to have established their presence and professional expertise wherever they found themselves. The privilege or guided decision to study medicine in Ukraine has been a life changing and fulfilling experience for many.

Transport:

In total, Ukrainian paved roads stretch for 164,732 kilometres (102,360 mi). Major routes, marked with the letter 'M' for 'International' extend nationwide and connect all major cities of Ukraine, and provide cross-border routes to the country's neighbours.

Language:

The state language of Ukraine is Ukrainian. Russian is widely spoken, especially in eastern and southern Ukraine.

RUSSIA

Fast Facts About Russia

Russia is a transcontinental country located in Eastern Europe and Northern Asia. It is the largest country in the world by area, spanning more than one-eighth of the Earth's inhabited land area, stretching eleven time zones, and bordering 16 sovereign nations.

Geography:

Russia is the largest country in the world; its total area is 17,075,200 square kilometres.

Climate:

The enormous size of Russia and the remoteness of many areas from the sea result in the dominance of the humid continental climate, which is prevalent in all parts of the country except for the tundra and the extreme southwest. Mountains in the south obstruct the flow of warm air masses from the Indian Ocean, while the plain of the west and north makes the country open to Arctic and Atlantic influences.

Biodiversity:

Russia has the world's largest forest reserves, known as "the lungs of Europe", second only to the Amazon Rainforest in the amount of carbon dioxide it absorbs.

WHY RUSSIA?

Russia has always been ahead in the field of education and more specifically medicine. Studying in Russia is easy, cheap and flexible. No donation are to be paid to the universities in Russia. It probably has one of the best education systems in the world producing a literacy rate of 99%. Russian higher medical education has gained a remarkable reputation in the world stage due to high educational standards with advance and sophisticated teaching methods and scientific approaches. Russia has been one of the top preferred destinations for the international students to pursue their Medical Degree Courses. The Medium of instruction is in English. All Universities are equipped with the most modern diagnostic and teaching aids. It is a preferred choice for International students because of highly subsidized fee by Russian Ministry of Health & Education as compared to other western countries. High Quality of Education combined with this low cost is one of the main reasons for choosing top medical universities of Russia for MBBS.

Transport:

Russian cities have well-developed systems of public transport, with the most common varieties of exploited vehicles being bus, trolleybus and tram.

Language:

Russia's 185 ethnic groups speak over 100 languages. Russian is the second-most used language on the Internet after English. The Russian Constitution guarantees free, universal health care for all its citizens.

THEY PICKLE EVERYTHING: CUCUMBER, BEETROOT AND FORMER LEADERS.

GEORGIA

Fast Facts About Georgia

Georgia is a country in the Caucasus region of Eurasia. Located at the crossroads of Western Asia and Eastern Europe, it is bounded to the west by the Black Sea, to the north by Russia, to the south by Turkey and Armenia, and to the southeast by Azerbaijan. The capital and largest city is Tbilisi.

Geography:

Georgia is mostly situated in the South Caucasus, while parts of the country are also located in the North Caucasus.

Climate:

The climate of Georgia is extremely diverse, considering the nation's small size. There are two main climatic zones, roughly corresponding to the eastern and western parts of the country. The Greater Caucasus Mountain Range plays an important role in moderating Georgia's climate and protects the nation from the penetration of colder air masses from the north. The Lesser Caucasus mountains partially protect the region from the influence of dry and hot air masses from the south.

Biodiversity:

Because of its high landscape diversity and low latitude, Georgia is home to about 5,601 species of animals, including 648 species of vertebrates.

WHY GEORGIA?

Below are some points that why we should choose Georgia:

- Low Tuition Fee
- Full English Medium
- Minimum Expenses
- Five years MBBS Programme
- WHO, PM & DC Approved
- No Entrance Exam for Indian Students
- Master the USMLE based program
- Study from the latest USA medical Textbooks, Manuals and other aids
- Language is not a barrier since medium of education is English
- All Successful graduates of Georgia are guaranteed to pass the MCI, ISMLE, Plab and other International exams.
- Acquire all embracing and sound knowledge to ensure a successful career in the medical field.

Transport:

Today transport in Georgia is provided by rail, road, ferry, and air.

Language:

The most widespread language group is the Kartvelian family, which includes Georgian, Svan, Mingrelian and Laz. The official languages of Georgia are Georgian, with Abkhaz having official status within the autonomous region of Abkhazia.

GEORGIA IS HOME TO 65 THREATENED AND ENDANGERED PLANT AND ANIMAL SPECIES.

KAZAKHSTAN

Fast Facts About Kazakhstan

Kazakhstan, officially the Republic of Kazakhstan, is a transcontinental country largely located in Central Asia with the most western parts of it being located in Eastern Europe. It is the world's largest landlocked country, and the ninth-largest country in the world, with an area of 2,724,900 square kilometres (1,052,100 sq mi).

Geography:

Kazakhstan is one of only two landlocked countries in the world that has territory in two continents.

Climate:

Kazakhstan has an "extreme" continental climate, with warm summers and very cold winters. Indeed, Nursultan is the second coldest capital city in the world after Ulaanbaatar. Precipitation varies between arid and semi-arid conditions, the winter being particularly dry.

Biodiversity:

There are ten nature reserves and ten national parks in Kazakhstan that provide safe haven for many rare and endangered plants and animals.

WHY KAZAKHSTAN?

Kazakhstan is emerging as a study destination for international students. The country is wealthiest and the largest country.

Kazakhstan education system is well established. The country has many higher education institutions offering a wide range of study programmes. Also, the institutions are into the global exchange programmes and collaboration, thus attracting International pupils from across the world. Kazakhstan is a diverse country. It is a blend of different religion, cultures and languages. The cost of living is cheap in Kazakhstan. It is easy to get Mbbs admission in Kazakhstan as they have kept the procedure simple for all the students. The MBBS in KAZAKHSTAN is a very well-known course to all the medical aspirants as all top medical colleges in Kazakhstan. Kazakhstan which is a cross-country nation of Asia is being the most blazing point for medical training. The absolute first explanation is afford ability. Indeed, you can bear the cost of the MBBS program at a genuinely sensible amount of money in contrast with different nations.

THE PEOPLE WHO LIVE IN KAZAKHSTAN REPRESENT MORE THAN 120 NATIONALITIES.

Transport:

Railways provide 68% of all cargo and passenger traffic to over 57% of the country.

Language:

Kazakhstan is officially a bilingual country. Kazakh, (part of the Kipchak family of Turkic languages) spoken natively by 64.4% of the population, has the status of "state" language, whereas Russian, which is spoken by most Kazakhstanis, is declared an "official" language.

KYRGYZSTAN

Fast Facts About Kyrgyzstan

Kyrgyzstan, officially the Kyrgyz Republic is a country in Central Asia. Kyrgyzstan is a landlocked country with mountainous terrain.

Geography:

Kyrgyzstan is a landlocked country in Central Asia, bordering Kazakhstan, China, Tajikistan and Uzbekistan.

Climate:

The climate varies regionally. The low-lying Fergana Valley in the southwest is subtropical and extremely hot in summer, with temperatures reaching 40 °C(104 °F) The northern foothills are temperate and the Tian Shan varies from dry continental to polar climate, depending on elevation.

Tourism:

One of the most popular tourist destination points in Kyrgyzstan is the lake Issyk-Kul. The most popular beach zones are in the city of Cholpon-Ata and the settlements nearby, such as Kara-Oi (Dolinka), Bosteri and Korumdy.

WHY KYRGYZSTAN?

It's an amazing opportunity! Kyrgyzstan has always been ahead in the field of education and more specifically medicine. Studying in Kyrgyzstan is easy, cheap and flexible. You wanted to go someplace exotic and off the beaten path, isn't that everyone's dream? Yet still within the realm of practicality. All Universities are equipped with the most modern diagnostic and teaching aids. Kyrgyzstan offers all the possible advantages I could hope for, pervasive use of the Russian language, opportunities to teach English and a storied cultural, political and religious history to boot! At the same time, Capital Bishkek is a growing and very livable city; while it lacks the amenities of a Western or even a well-developed Russian or Eastern Asian city, there's a sense of thrilling novelty about it.

- Low Tuition Fee
- Full English Medium
- Minimum Expenses
- Five years MBBS programme
- WHO, PM & DC Approved

PEOPLE IN KYRGYZSTAN LOVE TEA. IT IS LIKE A REPLACEMENT FOR WATER HERE, AND YOU DRINK TEA WITH PRETTY MUCH EVERY MEAL.

Transport:

Transport in Kyrgyzstan is severely constrained by the country's alpine topography.

Language:

Kyrgyzstan is one of two former Soviet republics in Central Asia to have Russian as an official language, Kazakhstan being the other. The Kyrgyz language was adopted as the official language in 1991.

CHINA

Fast Facts About China

China, officially the People's Republic of China, is a country in East Asia. It is the world's most populous country, with a population of around 1.4 billion in 2019. It is the world's third- or fourth-largest country by area.

Geography:

China's landscape is vast and diverse, ranging from the Gobi and Taklamakan deserts in the arid north to the subtropical forests in the wetter south.

Climate:

China's climate is mainly dominated by dry seasons and wet monsoons, which lead to pronounced temperature differences between winter and summer. The climate in China differs from region to region because of the country's highly complex topography.

Biodiversity:

China is one of 17 megadiverse countries, lying in two of the world's major biogeographic realms: the Palearctic and the Indomalayan. China is home to at least 551 species of mammals (the third-highest such number in the world).

WHY CHINA?

China is one of the oldest civilizations in the world having a written history of more than 5,000 years, rich culture and a respected educational tradition. That tradition continues to this day, especially in the field of medicine: China is now one of the fastest growing destinations for international students studying medicine in the world. In recent years, a lot of students from different parts of the world are also opting for China for medical education. Last year, more than 10,000 students came to China to study medicine, most of them selecting an English-medium MBBS program. The 52 approved medical schools are public universities under the supervision of the Chinese Government and have been approved to enroll international students. All are listed in the World Health Organization (WHO)'s "Directory of World Medical Schools". This listing means that graduates are eligible to attend national medical screening tests such as USMLE, PLAB, AMC, MCI, PMDC, HPCSA, SCHS, etc. China has great education infrastructure with affordable tuition fees and living expenses. Studying towards an MBBS in China is 70% cheaper than undertaking a similar program in the US or UK.

CHINA HAS RICH CULTURAL AND PHILOSOPHICAL TRADITIONS.

Transport:

Since 2000, the growth of rapid transit systems in Chinese cities has accelerated.

Language:

There are as many as 292 living languages in China. The languages most commonly spoken belong to the Sinitic branch of the Sino-Tibetan language family, which contains Mandarin (spoken by 70% of the population) and other varieties of Chinese language.

PHILIPPINES

Fast Facts About Philippines

The Philippines, officially the Republic of the Philippines is an archipelagic country in Southeast Asia. Situated in the western Pacific Ocean, it consists of about 7,641 islands that are broadly categorized under three main geographical divisions from north to south: Luzon, Visayas and Mindanao.

Geography:

The Philippines is an archipelago composed of about 7,641 islands with a total land area, including inland bodies of water, of 300,000 square kilometers (115,831 sq mi).

Climate:

The Philippines has a tropical maritime climate that is usually hot and humid. The Philippines is highly exposed to climate change.

Biodiversity:

The Philippines is a megadiverse country. Forest cover declined from 70% of the Philippines's total land area in 1900 to about 18.3% in 1999. Many species are endangered and scientists say that Southeast Asia, which the Philippines is part of, faces a catastrophic extinction rate of 20% by the end of the 21st century.
